

Dustless Tile Removal

Removal Agreement

Our dustless removal equipment is designed to remove all types of flooring in an efficient, safe, and dustless manner. Just a couple of things to be mindful of:

In removing flooring adjacent to other types of flooring, such as tile, we will not be responsible for damage caused by the removal on topical transitions to those areas or raw edges left exposed from adjacent flooring removal.

If we remove trim or base shoe, we will number it and set it aside. We are not responsible for pieces missing later.

If we take up an existing floor and another floor is under it there will be additional charges to remove it as well if it is desired to be removed.

We will remove all the trash from the job site unless instructed otherwise.

We take pride in our work and look forward to a safe and effective removal.
